**sanitary.**

**education.**

## what we do.

- We have several high-quality products to choose from on the menu, keeping everyone engaged as we educate on how each variety can be used effectively for each individual.
- We use modern designed booths and signage, as well as in person and online social media and advertising for your event. This consistency brings new customers to our table at each event.  
(Private Events require further strategic planning)
- Just because you're having cannabis served at your event, doesn't mean it has to be cannabis themed. Our services emit sophistication and Luxury with knowledgeable staff that moderates serving size, while ensuring to educate attendees.

private parties / wedding events / craft events / get-togethers / bachelorette & bachelor parties / birthdays / .. much more.
